

Resort Updates and Enhancements

The board is working hard to spend money wisely in our current economy. Today's economic conditions are stretching the association's budget and well as yours. All resort spending is being prioritized based on need and association budget. All repairs and maintenance issues will be met but we have also included furniture, lamp and DVD player updates where needed. Another roof will also be completed in the near future and we are looking into staining the outside of some of the units.

**HAVE A GREAT
SUMMER!**

Look for the Association By-Laws to be posted on our web site in the near future. The posting will allow all owners on-line access to this important document.

Tree Replacement

Last year it was necessary to cut down a number of diseased trees throughout the resort. The board authorized a tree replacement program which will continue this year. We need to continue to replace the natural resources of the resort in order to keep our resort beautiful.

Resort Summer Activities

As a reminder, listed are just a few of the summer activities that can be checked out at the office: *shuffleboard, bicycles, soccer and bocce balls, croquet, badminton, volleyball, basketball and paddle boats.*

Look through the book located in the units or asks the folks at the front desk about all the available activities.

Owner Information

It is important for the resort and association to have all owners updated information. Please contact the resort office with e-mail addresses or any recent changes, either e-mail or mailing addresses. In order to best serve our owners contact information needs to be current.

Please feel free to contact the resort office with any inquiries. The staff is more than willing to help in any way possible.
